Technical Stack

Javascript	Node.js	React.js
HTML / CSS	Git	MongoDB
Bootstrap	styled-components	Python

Experience

Web Development Intern | Awesome Inc | Lexington, KY, USA   **June 2021 ~ Current**

- Created **HTML** blocks using **Bootstrap** and debugged **Twig** templates to migrate the site to **Drupal**.
- Increased productivity by creating Drupal paragraph elements for non-developers to update content.
- Improved site speed by finding and removing unnecessary modules.

Production Manager | Desert Springs Church | Chandler, AZ, USA   **Jun 2020 ~ Jan 2021**

- Managed a team of 15 volunteers and trained them on sound, lighting, and camera equipment.
- Set up the network for directing the camera team and streaming to multiple sites.
- Reduced the required number of tech team volunteers to only two people by automating lighting cues and syncing them with the projector slides.

English Teacher | E-Spirit Academy, Seoul | South Korea   **Feb 2019 ~ Feb 2020**

- Reduced new hire training by filming and editing three videos that summarized the curriculum.
- Developed and wrote one semester's worth of text book sample sentences for the curriculum.
- Taught English writing and reading comprehension to elementary school students.

Projects

React Blog Content Editor
- Front-end Repo: github.com/johnrdoty92/blog-editor-frontend
- Back-end Repo: github.com/johnrdoty92/blog-editor-backend
- Live Site: johndoty.website:3030

This is a full-stack application hosted on a Vultr **Linux Centos 8** instance with a **React.js** front-end and **Node.js** back-end. The front-end uses **React Router** to handle routes and **react-modal** to display information to the user. The back-end handles CRUD operations to a local **MongoDB** database.

React Theme Saver
- Repo: github.com/johnrdoty92/react-theme-saver
- Live Site: johnrdoty92.github.io/react-theme-saver/

This front-end app incorporates **React.js** and **styled-components** to create an interface that allows users to choose colors and update the UI. Themes can then be saved into **localStorage.**

Education

Introduction to Web Design | 9 Week Course | Awesome Inc   2021
Lexington, KY, USA

BFA Film Production, Emphasis in Sound Design | Chapman University | 3.7 GPA   2014
Orange, CA, USA

Languages

English (Native)   **Korean** (TOPIK II Level 5)
